Re: Land Disposal Restrictions
National Steel Corporation
ILD 008 873 937

Dear Mr. Cannon:

COMPLIANCE

On March 22, 1989, the Illinois Environmental Protection Agency (IEPA), representing the U.S. Environmental Protection Agency, conducted a Resource Conservation and Recovery Act (RCRA) inspection of the above-referenced facility. The purpose of the inspection was to determine the facility's compliance with the applicable hazardous waste management requirements of RCRA, including the Federal land disposal restrictions. The land disposal restrictions for F001-F005 spent solvents became effective on November 8, 1986, (40 CFR Part 268 and revisions to 40 CFR Parts 260-265 and 270-271) and for "California List" hazardous wastes on July 8, 1987, (52 Federal Register 25760: revisions to 40 CFR Parts 262, 264, 265, 268, and 270-271). Additionally, the land disposal restrictions for First Third of Scheduled Wastes became effective on August 8, 1988, (532 Federal Register 31138: revisions to 40 CFR Parts 264, 265, 266, 268, and 271).

With respect to the land disposal restrictions section of the inspection, your facility was found to be in compliance with the requirements. A copy of the inspection report is enclosed for your records.

If you have any questions regarding this correspondence, please contact Gertrud Matuschkovitz of my staff at (312) 353-7921.

Sincerely yours,

Paul E. Dimock, Chief
IL/MI/WI Enforcement Program Section
